* Use flea control product? _____ **(We cannot allow a dog with fleas in the pool!)**

Additional information/clarification of above answers _____

***** Please bring record/ have your vet fax vaccine or titer dates. These must be current. *****

POOP ACCIDENTS IN THE POOL AND DOG HAIR ARE OUR BIGGEST CHALLENGES WITH THE POOL SYSTEMS.

It is expensive (\$100 charge each time) and time consuming to decontaminate the water after a poop accident. It is of utmost importance that a dog has pooped prior to their swim. Please try to toilet your dog prior to arriving for your session. Be considerate of our generous homeowners yards and property. Neurologically impaired and seniors are at most risk for accidents. **Dogs will often need to urinate immediately after a session**—be ready to head to go to a designated area.

We ask that you spend 20-30 minutes “brush time” before your appt. We have a shedding blade available onsite for you if you are not able to brush at home.

Note our 24 hour cancellation policy; there is a \$45 charge for cancellations with less than a 24 hr. notice.

I understand my animals rehab will be performed in an area with other people and animals. I have read and understand the rules necessary for this to be done as safely as possible and I agree to follow these rules.

DOGS MUST BE ON LEASH AT ALL TIMES!
