*Use Frontline/Advantage for fleas? _____

Additional information / clarification of above answers, if needed:

POOP ACCIDENTS IN THE POOL AND DOG HAIR ARE OUR BIGGEST CHALLENGES WITH THE POOL SYSTEMS.

It is expensive (\$100 charge each time) and time consuming (2 days) to decontaminate the water after a poop accident. It is of utmost importance that a dog has pooped prior to their swim. (Make every effort you can to make this happen. If you know it is a problem consider skipping the morning feeding on swim day—one suggestion... for more ideas ask staff!!)

We ask that you spend 20-30 minutes “brush time” shortly before your appt. (Ask @ specifics for your dog) We have a shedding blade available onsite for you if you are not able to brush at home.

Please ask where it is best to toilet your dog. We have a gravel area just inside the gate and grass for those that need it. **Dogs will often need to urinate immediately after a session**—be ready for a hasty exit to an appropriate area!

Note our 24 hour cancellation policy; all of our time is valuable! (There is a \$45 charge for cancellations with less than a 24 hr. notice)

I understand my animals rehab will be performed in an area with other people and animals. I have read and understand the rules necessary for this to be done as safely as possible and I agree to follow these rules.
